

TWISTER
Mixing Carafe
Product Design for **ARZUM**

Twister is a mixing carafe for drinks, which need to be stirred or shaken before service. These include fruit juices, lemonades, buttermilks which form precipitations with time. Twister is equipped with three blender rods that can be spinned with a finger by its rotating cap.

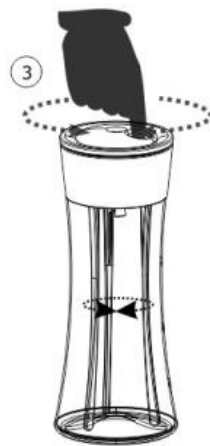

1 Pour the juice.

2 Put on the lid.
Click into the collet;
Turn to close.

3 Turn the roller to mix.

4 Turn up the lid.
Ready to serve.

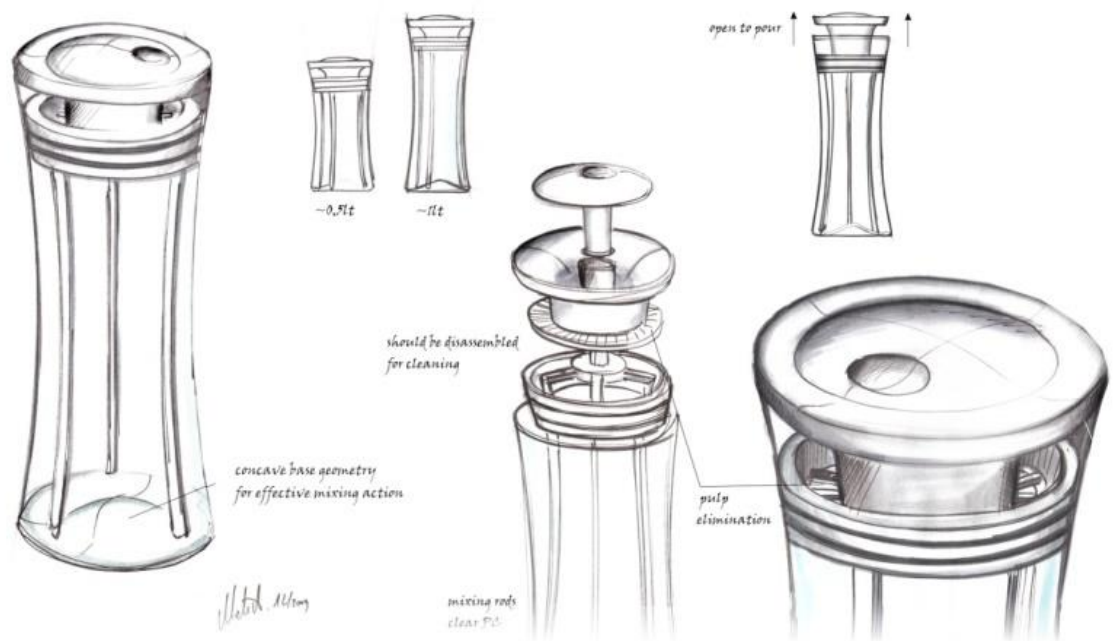

Specifications:

- Impermeable cap system preserves the content fresh. Mixing action can be performed with open/closed lid.
- The parts can be disassembled for cleaning. The cap system is equipped with a flow filter for pulp elimination.
- Three mixing rods & convex base geometry ensures effective mixing action.

Design Concept: Twister is a simple translation of the primitive stirring action into a playful, useful product.
